Saved-operand failure analysis: no new fit, encoding, or model generation
R8F2: empirical fit does not transfer
Affine SSE / original RTN SSE
Training
Validation
Step 2
Step 3
Validation error: useful fit, costly extrapolation
FP64 affine output SSE
In training span
Outside span
Cross term
Step 2 RTN
Step 2 Hessian
Step 3 RTN
Step 3 Hessian
R7D2: downstream target is not sufficient
Actual native flow SSE reduction (%)
All sources development-exposed
local fit
flow fit
Three fit sources
One fit-excluded source
R7D2: only 1.806% of predicted gain realized
Training flow SSE reduction (absolute)
2447.64
44.20
Secant prediction
Actual native forward
